DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: claim 1 has been allowed over the prior art because they fail to teach a laser beam generating assembly comprising **a coaxial laser resonator generating a circular sector shaped beam cross section with azimuthal polarization and an optical beam reforming system through which the lower beam extends in a beam path including a mirror with a reflective surface shaped in the form of a circular sector of a parabolic rotational body, said beam reforming system reforming the circular sector shaped laser beam into one having a rectangular cross section with linear polarization.**

The following is an examiner's statement of reasons for allowance: claim 10 has been allowed over the prior art because they fail to teach in combination a **coaxial laser resonator with an annular discharge chamber and a circular sector shaped output opening generating a laser beam with a circular sector shaped beam cross section and azimuthal polarization and an optical beam reforming system providing a beam path therethrough and including a mirror with a reflective surface shaped in the form of a circular sector of a parabolic rotational body, said optical system reforming the**

laser beam into a laser beam with a rectangular beam cross section and linear polarization.

Claims 2 – 9 and 11 – 18 has been found allowable due to their dependency on claims 1 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reason for Allowance".
